

VELOX VCS500ENC

5" 6W Recessed Ceiling Speaker

Description

The 6W powered speaker is equipped with a 130mm full-range loudspeaker and a 100V transformer with 3 power adjustments. The powder coated metal similar to RAL 9016 guarantees long-term stability. Thanks to an innovative air flow system, the VCS provides sound characteristics which are attributed to a conventional bass speaker. An extremely flat construction method allows a low mounting depth of only 70mm, with less than 1 kg product weight. For additional reliability the speaker is impregnated against wetness.

The speaker is also secured with protection class IP 21C against the security risks of environmental influences. Quick and easy mounting with spring clamps and short tension distance. Perfectly suitable for installations where the installation depth is very limited. For additional safety a 4 pin-ceramic block and a thermal fuse are provided and the speaker is impregnated against dampness.

Special paint of the speaker in 4-digit RAL- or NCS- colour available at extra cost. The innovative PET-plastic contact protection is included in the delivery and protected by an European patent (publication no. 2768238).

This speaker is suitable for a ceiling strength of about 3 – 45 mm. Our specification is primarily related to solid ceilings, for ceilings with soft materials a higher ceiling thicknesses could be necessary. In addition, stronger cables and other fittings may also result in changes of the appropriate setup. With regard to the variety of materials and manufacturers, we recommend to build in a sample of the speaker to match the requirements accurately.

Standard & Approvals

VELOX loudspeakers are tested and classified according to the IEC standard 60529 (degree of protection by enclosure) against the penetration of foreign objects and moisture.

The classification is conforming to standards through characterization with a fixed code. This code consists of the letters IP (International Protection) followed by two digits.

The first digit indicates the degree of protection against dust and the second digit the degree of protection against water. Please note that the testing of the products has been carried out in laboratory conditions which are not always 100% comparable with the conditions of different installation environments. This protection can be reduced due to normal wear and tear depending on the installation environment.

RoHS compliant (2011/65/EU)

The IP rating specified is based on VELOX test results, not on CNBOP-PIB test results. Certification only verifies the minimum requirements for EN54-24 compliance.

Product Attributes

- high sound pressure level
- low mounting depth
- antistatic plastic contact protection

Made for VELOX in Germany

Technical Data (Electrical)

Feature	Description
Power	6/3/1,5 W
Impedance (100V)	1667/3333/6667 ohm
Frequency Range	104 - 17.200 Hz
Frequency Response	57 - 24.000 Hz
SPL 1W/1m, peak	98,3 dB
SPL , 1W/4m, peak	86,3 dB
SPL Pmax/4m, peak	94 dB
SPL, rated noise power / 4m	85,0 dB
Sensitivity EN54-24, 1W/4m	74,8 db (plastic) 74,2 db (metal)
Sensitivity EN54-24, 1W/1m	86,8 dB
Dispersion -6dB, 500Hz	plastic/metal 180°
Dispersion -6dB, 1KHz	plastic/metal 180°
Dispersion -6dB, 2KHz	plastic/metal 140°
Dispersion -6dB, 4KHz	plastic/metal 85°/84°

Please note: Because of many different types of ceiling materials and ceiling strengths we recommend to build in a sample of the speaker to match the requirements accurately.

Technical Data (Mechanical)

Feature	Description
Dimensions	181,5x65 mm (plastic) 181,5x91,5 mm (metal)
IP Rating	IP21
Weight (net)	0,51 kg (plastic) 0,71 kg (metal)
Ceiling Cut-out	156 mm
Temperature range	-10 / +55 C°
Mounting	spring clamp
Connector	4-pin Ceramic Block
Maximum cable cross section	8mm ²
Max. cable cross section loop	2x2mm ²
Colour	RAL 9016

Part No.	Description
VCS500ENC	5" Ceiling speaker, 6 watts, RAL 9016, metal, with thermal fuse and ceramic block, certified EN 54-24, BS 5839 compliant, IP21C
